

# PROJECT SUMMARY

## PROJECT ADDRESS:

223-225 High Street, Lewisham, London  
SE13 6LY

## PROJECT DATE:

February 2016

## SUMMARY:

A very ordinary two storey office building at 223-225 Lewisham High Street served as headquarters for the Acorn Group for many years before we relocated to Bromley in 2013.

With our former base surplus to requirements, we set about the promotion of the site for redevelopment. Jeff East headed the project and engaged a team of expert consultants including Yurky Cross Architects and planners bptw. Full planning permission was secured at local level for 22 apartments above ground floor commercial space, and with no affordable housing provision.

We subsequently marketed the site, and our sale to Skillcrown Homes completed in early 2016. At the time of writing Jeff is acting for Skillcrown in the assembly and promotion of an extension to the consented scheme.
